

Members, Officers and Directors of SEMBOA,

I wish to thank you all for your statements of congratulations and support.

I have had no aspiration to the position to which I was recently appointed or elected. Now that I have been chosen to fill out the balance of the current term of President of the MFBO, I will strive to represent you and all Building Officials state wide to the best of my ability. I must make it clear that I will be relying heavily on the members of the MFBO Board of Directors for considerable help over the next few months of the term of office.

I assure you all that I have no intention of extending my tenure as President beyond the next election as I much prefer to promote the profession of the building official through work in the background rather than as the "point man."

Again, thank you all for your support!

To a prosperous and happy New Year,

Robert C. (Bob) Borden
